FINANCIAL

For Our Depositors.

How much of it do you get?

Twice a year, on October 1st and April 1st, we credit Interest to the Savings Accounts of our depositors.

It amounts this time to the great sum of \$44,772.90. Think of it. Over \$43,000 earned in six months.

If you share in this great distribution, please bring your pass book to the bank, so that the amount may be written in it.

This is surely a vivid object lesson of the advantages of saving. If you have not started an account yet, do so at once and learn what it feels like to have some money working for you. A single dollar will open an account, if you cannot spare more.
